

## **REMARKS**

In the office action dated July 29, 2005, the Examiner rejected claims 2-11 as being anticipated by Flanagin. Claim 2 is amended to recite that the non-deterministic digital contents are generated at time intervals that are substantially periodic. On the other hand, Flanagin teaches creation at the request of a user. Consequently, claim 2 is patentable over Flanagin. Claims 3-11 are patentable on at least the same basis.

New claims 12-20 are added to claim a process. No new matter is introduced.

Applicant believes that all grounds of rejection have been satisfactorily answered. The allowance of the present application is respectively urged.

The Commissioner is hereby authorized to charge any fees under 37 C.F.R. §§ 1.16 and 1.17 that may be required, and to credit any overpayment, to Deposit Account No. 03-1243 (Our Docket No. LOCREM-01).

Respectfully submitted,
